Mimi Publishing Inc. Releases Second Book!

Mimi Publishing Inc. is pleased to announce the release of their second book in a series of inspirational stories. *Mimi the Angel Visits the Hospital* helps alleviate the fears of children who are in the hospital by addressing common concerns children have.

Authors Sylvie Brûlé and Jennifer Clark wrote the second book to support child-life specialists in hospitals and parents. *Mimi the Angel Visits the Hospital* will reduce children's anxieties as Mimi the Angel™ teaches children what they can expect about surgery. Julie Lefebvre once again has captured the imagination of children with her magical characters and scenery.

To ensure the author's have captured this universal message, they invited a pilot group of children and their parents to actively participate in the creation of the story lines and the drawing of the illustrations. With a serious dedication to their task, children aged 3 years old to 13 years old, who have been in the hospital, sat with us in open hearted discussion to share with us their experiences.

Published by Mimi Publishing Inc., *Mimi the Angel Visits the Hospital*, is written for readers 3 years +, and available for purchase at \$9.95 CDN or \$6.95 US.
